-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Continued Examination Under 37 CFR 1.114***

Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) and a submission, filed on 5/16/2007. The submission is fully responsive to the prior Office action. Accordingly, claims 1-3,6,12-14 are currently pending for consideration.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3,6,12-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al [6432127].

Kim et al discloses a delivery catheter; an implant, detachably carried by the delivery catheter, the implant reversibly movable between a first, flexible configuration for delivery to a site and a second, rigid configuration which may include remodeling of the luminal tissues, the implant including a guidewire lumen adapted to slideably engage a guidewire; and a control on the catheter for reversibly transforming the implant between the first flexible configuration and the second remodeling configuration.

Art Unit: 3738

Claim 2, see many of the arcuate configurations as illustrated in the figures.

Claim 6, the covering may be impregnated with radiopaque material.

Claim 12, see column 18, lines 60+.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 3 is rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Kim et al [6432127].

While Kim et al is silent as to the numerical degree of the arcuate form, it appears from the drawings that, as illustrated, some of the embodiment have a radius within the range as claimed. The device of Kim et al is used in the vascular lumens similar to that as applicant's device. If not inherent in the structure of Kim et al, it would have been obvious to form a radius of about 10-20 mm depending upon the luminal application of each patient.

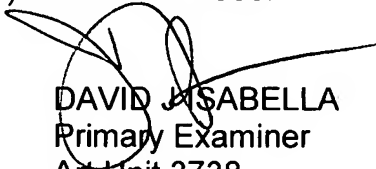

### ***Allowable Subject Matter***

Claims 13 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
